

OCCM

CERTIFICATION TRAINING PROGRAM

ABOUT THE COURSE

Discover AAM's Self-paced Online training program, meticulously crafted by industry experts. Dive deep into Aircraft On Condition and Condition Monitoring components (OCCM), gaining profound insights from fundamental principles to intricate technical details crucial for effective aircraft transition management. Equip yourself with comprehensive knowledge and understanding to navigate every aspect of OCCM confidently. Enroll now to elevate your expertise in aviation maintenance and operations.

SELF-PACED
ONLINE TRAINING

"Anyone who stops learning is old, whether at twenty or eight. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young."

- Henry Ford

OUR VISION

At AAM, we foster a culture of continuous learning and active engagement in the aviation industry. Our ethos encourages individuals to embrace learning opportunities and apply newfound knowledge and skills effectively. We prioritize professional development by offering a variety of easily accessible learning avenues tailored to diverse learning styles and preferences. Participants in our training programs acquire invaluable insights and expertise, empowering them to advance their careers with confidence within the industry.

LEARNING OUTCOMES

Throughout the course, participants will achieve the following:

- Enhanced comprehension of on-condition and condition-monitoring maintenance practices.
- Deeper knowledge of both titled and non-titled aircraft components.
- Familiarity with audit compliance standards for titled and non-titled components.
- Clear understanding of FAA and EASA regulatory protocols.
- Focus on meeting aircraft lease return condition criteria for components.
- Comprehensive grasp of OCCM status reports.
- Detailed guidelines for preparing OCCM status reports with precision.

WHO SHOULD ATTEND THESE COURSES?

- AME Diploma holders / Aerospace / Aeronautical engineering students
- Experienced Aircraft Maintenance Personnel and Engineers
- Executives of Aircraft leasing background
- Technical officer / CAMO Officer, Executives of involved with Planning and Quality control

OCCM CERTIFICATION TRAINING PROGRAM

LEVEL I

- Understanding of Basic terminologies and documents.
- Basic fundamentals of On-condition and Condition Monitoring Components of Aircraft, Maintenance process.
- Understanding of status report with column header requirement.
- Understanding of audit guidelines and compliance requirements for basic scenarios.

OCCM CERTIFICATION TRAINING PROGRAM

LEVEL II

- Comprehension of documentation about OCCM components.
- Familiarization with component scenarios and corresponding compliance audit guidelines.
- Appreciation for the significance of different terminologies during operations.
- Exploration of diverse audit guideline scenarios.
- Thorough comprehension of FAA and EASA procedures.

OCCM CERTIFICATION TRAINING PROGRAM

LEVEL III

- This comprehensive course package encompasses training on OCCM components, offering thorough insights into audit guidelines, compliance requirements, and the preparation of status reports.
- Within this course package, we deliver extensive knowledge and skills development opportunities focused on OCCM Components.
- The curriculum includes a comprehensive guide to preparing OCCM Status Reports from scratch.
- Additionally, participants will receive valuable tips and tricks to enhance their status report preparation techniques.

INSTRUCTORS

Gordon Jarratt - Senior Vice President at AAM

Mr. Gordon Jarratt, CEO and senior Engineer at AAM, brings over three decades of expertise as an Aircraft Licensed Maintenance Engineer in the aviation sector. With a strong background in Aeronautical Engineering, he holds specialized EASA AML Aircraft Maintenance and FAA A&P Airframe and Powerplant licenses. Gordon's proficiency extends to Structure Repairs, Aircraft Leasing, and Project Management of Aircraft Transitions, underscored by a history of driving revenue growth and fostering effective team dynamics. His commitment to knowledge dissemination is evident through AAM, where he shares his technical acumen with a passion for teaching. Mr. Gordon's unique blend of extensive experience and pedagogical zeal benefits both clients and students, offering unparalleled insights and inspiration. Explore more about Gordon's expertise on LinkedIn. 

Mahima Sharma - Training & Induction Manager at AAM

Mahima Sharma brings more than 8 years of extensive experience in the aviation sector, supported by her background in Aircraft Maintenance Engineering and her ongoing pursuit of an MBA in Data Science. Her expertise encompasses a range of areas, from proficiently managing aircraft lease transitions to excelling in CAMO and quality control domains. Additionally, she possesses specialized skills in organizational coaching and technical training. Committed to delivering impactful professional education, Mahima's interests extend to various aspects of management communication, training program development, conflict resolution, and leadership. For further insight into Mahima's professional journey, her LinkedIn profile offers valuable insights. 

OTHER CERTIFICATED AAM PROGRAMS

AAM serves as a central hub for professional excellence in the aircraft asset management field. In response to identified gaps in knowledge and skills among professionals in this sector, AAM has developed a suite of endorsed training courses, presented in a flexible learning format, providing aviation professionals with a valuable opportunity to enhance their skills. The development of all AAM courses is rooted in Training Need Analysis (TNA) and expert input. Students will benefit from a variety of learning methods, including live interactive sessions, self-paced training modules, case studies, and assignments to facilitate their learning process.
